

FAISAL INDUSTRIES

FAISAL INDUSTRIES

From a modest beginning in 1985 FAISAL INDUSTRIES grew and expanded to be amongst the country's largest producers and exporters of household linen and that too within a record short time. Unflinching commitment to excellence and high professionalism, which are part of FAISAL'S creed, made this unprecedented growth and expansion a reality.

Housed in ultra-modern, purpose-built structures covering more than 60,000 sq.ft., FAISAL is today capable of producing over 100,000 pcs of superbly designed bed linen every month including curtains, table covers, etc.

FAISAL'S technical capabilities come from its highly qualified and experienced professionals specialising in their own fields and from dedicated teamwork of its over 180 personnel.

For a concern like FAISAL who have to compete with the World's major manufactures in foreign markets, "Quality" takes on a particularly pivotal importance. It is for this reason, quality gets top priority with us. To maintain our competitive edge quality wise, we have a roster of highly experienced, qualified professionals and a team of highly skilled personnel. We keep a constant check and never compromise on the quality standards that conform to international criteria. The smallest flaw in our product is enough to make us mark it "REJECTED".
